ARTWORK SPECIFICATIONS

Secco Vino Frizzante

20 cl | Front and back labels | PRO20T

FRONT LABEL

84 × 55 mm • with bleed 90 × 61 mm

BACK LABEL

50 × 40 mm • with bleed 56 × 46 mm

Choose your front label

Choose a standard label on page 2 for orders from **792 bottles**. Tell us its number and supply your logo and text for printing in **black or shades of grey**.

The back label is available in **silver (181), white (182) and gold (183)**. Foil capsule colours and their minimum order quantity are listed on page 2.

YOUR PERSONALISED PRINT

Supply your logo and text as a high-resolution PDF or Illustrator EPS. Convert all text to outlines.

Use black ink. 100% K produces black. Lower K percentages produce shades of grey (C, M and Y at 0%). Keep text and logos within the open area of the selected standard label, clear of the decorative borders.

FOR A FULLY CUSTOM DESIGN

From 1 full pallet (1,584 bottles). Use the front label on page 3 at actual size. Extend backgrounds 3 mm beyond the cutting line.

Work in CMYK with images of at least 300 dpi. Preferably keep text and logos 3 mm inside the cutting line. Remove guides when exporting.

Back label and file delivery

Page 4 places the product text, energy value and QR code in one field of vision. Maintain the minimum text heights (x-height 1.2 mm, volume 3 mm, alcohol 2 mm). Keep the 18 × 18 mm QR code black on white, including its white border. Supply each label separately with 3 mm bleed and no crop marks.

Current details for each order
This version uses the supplier's data for L4476, with 10.5% vol. and 276 kJ / 65 kcal per 100 ml. The QR code, ingredients, alcohol and lot number may vary between orders. The supplier confirms the current details and applies the lot number to the bottle.

Choose your standard label

Your personalised layout in black and grey

Choose one of the four standard labels below for orders from 792 bottles. Include its number, your logo, text and preferred layout with your order. You will receive a digital proof for approval.
